lic.

SENATOR LEAVES OFF TOUPEE.

Colorado Member Prepares for Sum-
mer Weather.

Official recognition of the fact that
summer is here was shown in the Senate
yesterday. Every Senator at once recog-
nized the harbinger as certainly as the
appearance of the "first robin" heralds
spring.

Senator Charles Thomas, of Colorado,
appeared without his toupee. The Senator
has a fine suit of hair in the winter
months, which is less luxuriant as spring
begins. He is, however, finally with the
first burst of summer sunshine, the hair
comes off by a simple "yanking off" of
the toupee.

Senator Thomas makes no concealment
of the "yanking off." Meeting one of his
colleagues a few days ago, the Senator
observed:

"If this weather keeps up, I'll have
to put on my bald top tomorrow and
enjoy the brief season of immunity from
foliage previous to my time."

BORAH ATTACKS MEXICAN POLICY

Member of Senate Foreign Re-
lations Committee Calls Wil-
son Method "Humiliating."

CARRANZA IS ASSAILED

Senator Declares Administration's
Handling of Situation Is Greatest
Outrage of All History.

Senator William E. Borah, member of
the Foreign Relations Committee of the
Senate and an aggressive Republican of
the Progressive type, yesterday ar-
raigned the administration of President
Wilson for its Mexican policy, which the
Senator characterized as "humiliating."
History, the Senator said, would not fur-
nish a parallel for the story of national
humiliation imposed on us by our relation-
ship with Mexico. There have been times,
of course, when weak and defenseless
nations have had to suffer indignity and
all kinds of outrages, have had to submit
to the robbery and murder of their
citizens simply because of their weak-
ness and their inability to protect their
own. But I venture to say you will not
find in the pages of history an instance
in which a strong, powerful nation, a
nation claiming to be the guardian
of the rights of humanity has ever
submitted as we have week after week,
month after month, and year after year
to the studied and ostentatious insults,
outrages and humiliations of the Mexi-
can government and the murder of its
citizens at the hands of the Mexicans.

Senator Borah has been expressing his
disgust privately on the Mexican situa-
tion recently but has hesitated about
speaking publicly while the administra-
tion showed a disposition to try to cor-
rect the evils complained of, but the raid
on Glenn Springs, Tex., and the killing
of Americans aroused the Idaho Senator,
and when asked for a statement yester-
day he said:

"I do not suppose there is another story
in history so humiliating as our relation-
ship with Mexico. There have been times,
of course, when weak and defenseless
nations have had to suffer indignity and
all kinds of outrages, have had to submit
to the robbery and murder of their
citizens simply because of their weak-
ness and their inability to protect their
own. But I venture to say you will not
find in the pages of history an instance
in which a strong, powerful nation, a
nation claiming to be the guardian
of the rights of humanity has ever
submitted as we have week after week,
month after month, and year after year
to the studied and ostentatious insults,
outrages and humiliations of the Mexi-
can government and the murder of its
citizens at the hands of the Mexicans.

Citizens Not Protected.

"These things have happened to our
people and we have submitted to it not
only while our citizens were on foreign
soil though protected by a solemn treaty,
but even when they were upon their own
territory and under their own flag.
Leave out for a time the four years of
brutal treatment of our people in Mex-
ico where all principles of humanity and
civilization and national honor
required us to protect them and consider
alone the murders on this side of the bor-
der, the repeated, continued, persistent
outrages upon our citizens for the last
five years. Is it any wonder that no-
where are our demands respected and no-
where are our citizens protected?"

"It must be apparent to any one at
all familiar with the situation that Car-
ranza cannot restore order in Mexico,
and what concerns us most, he cannot
protect the border. We ought to put en-
ough troops upon the border to make ab-
solutely safe the lives of our own people,
and if any man or combination of men
in Mexico undertake in any way to em-
barrass us or prevent us from protect-
ing the border or the lives of our citi-
zens or punishing those who murder our
citizens we should consider them as
enemies and treat them the same as the
others."
